

# Moorings & Anchors Conference & Workshop

19.03.26 | Edinburgh

## The sell-out Moorings & Anchors event returns to Edinburgh

Bringing together industry leaders to explore the full life cycle of mooring systems through a mix of technical presentations and interactive workshop sessions. The programme focuses on real-world challenges and emerging solutions as offshore projects in multiple sectors move into deeper water and floating offshore wind continues to scale. Core themes this year include rope, connections, tension and re-tensioning and monitoring.

### Confirmed speakers

The conference programme will include topics covering: Fibre Rope, specifically nylon rope, certification, installation, pre-tensioning and benefits. Connect-Disconnect, re-tensioning. Monitoring, Operations and Maintenance.

Confirmed speakers include representatives from the following companies:

The full programme and final speaker line-up will be announced shortly.

### Developers attending

Developers confirmed to attend include **Copenhagen Offshore Partners, ESB, Flotation Energy, Nadara** and **Simply Blue Group**, with members of the Global Underwater Hub Developer Forum also expected to be in the room.

### Why attend?

One focused event bringing together developers, designers, manufacturers, installers and operators across the full moorings and anchors life cycle.

**The majority of attendees rated the sold-out 2025 event highly, with most giving it a score of 4 out of 5 or above,** particularly valuing the technical depth of the sessions and the opportunity to network with industry peers.

**Booking** for the conference is open, with a discounted ticket option available for GUH members. [Head to globalunderwaterhub.com](https://globalunderwaterhub.com)

**Venue** Dynamic Earth, Holyrood Road, Edinburgh, EH8 8AS
