

# Powering the Celtic Sea: Aligning Industry & Investment

24.02.26 | Bristol

## Unlocking the potential of Offshore Wind in the Celtic Sea

Join industry leaders, regional stakeholders, and suppliers at the **Powering the Celtic Sea: Aligning Industry & Investment Conference** on **Tuesday 24 February 2026** at Global Underwater Hub in Bristol to explore how the supply chain can help deliver the next phase of offshore wind development in the Celtic Sea.

With more than 4GW of floating offshore wind planned, the region presents a major opportunity for investment, innovation and regional growth. Building a strong, capable supply chain will be vital to develop, install and maintain thousands of turbines and subsea components.

### Call for Speakers

Deadline: 12.12.25

We're seeking abstracts from those wishing to contribute to the conference programme.

Opportunities in the Celtic Sea will bring together industry leaders, regional stakeholders and suppliers to explore how the supply chain can help unlock the full potential of offshore wind in the region.

The event will look at the demand 'pull' from developers while focusing on the supply chain capabilities needed to make offshore wind in the Celtic Sea a success.
